

# RESISTANT

Crisis Training Platform

## Training and Knowledge Sharing Platform for First Responders and Educational Tools for students' and citizens' awareness and preparedness against Natural and Manmade Disasters and Risks

---

RESISTANT project will support new and consolidate existing partnerships in civil protection and disaster risk management that enhance cooperation and synergies in prevention, preparedness and response. One of its objectives is to establish a European network of trainers for first and second responders with an initial focus on Southern Eastern Europe.

The project put in place a **virtual 'agora'** for first and second responders, academia, market practitioners, volunteers and other civil protection stakeholders to share knowledge and exchange best practices, especially in cross-border crisis management. The **'agora'**, which will facilitate discussion and contribute towards the development of a common prevention and protection culture, is available at:  
<http://www.resistantproject.eu/agora/>

In addition, RESISTANT will deploy a **dual-purpose platform** which will incorporate **the training programs to educate and train tomorrow's responder trainers** through established and regularly updated comprehensive educational, operational and virtual reality training along with a series **of educational and awareness programs enhanced with AR techniques for students', citizens', tourists' preparedness.**

Funded by  
European Union  
Civil Protection

This project has received funding from the European Union's UCPM-2020-KN-AG under grant agreement No 101017819
